RICK ROSE

Editor

Profile

I love editing and I am confident that I will make your editing team stronger, both creatively and technically.

I am a Canadian and UK Citizen currently living in London. Prior to this, I spent 2 years in New York City, where I was on the editing team for A&E's Reality TV hit Alaska PD Season 2.

I am proud to have been the Lead Editor on the Emmy nominated Bubble Guppies, an animated children's show for Nick Jr.

I have a subtle and acute understanding of rhythm and timing, which comes from years behind a drum set. I am a founding member of the band X-Ray Love which formed in New York City and is now based in London.

As well as the creative, I enjoy improving workflows, and developing and documenting repeatable processes for editing teams.

Before I fell in love with editing, I directed both film and theatre and won awards for my work.

I am an original thinker with a lot of spirit, and I look forward to introducing myself in person.
